- ILL (received:) (3,765)
- Personnel (14.0)
- Public Access Computers (37)
- Public Computer Sessions (17,728)

2017 Highlights

Strategic Long Range plan goals were developed, implemented and achieved including:

- Evaluation of KCPL Operations by identifying potential efficiencies and making adjustments to ensure smoother workflow, providing opportunities for employee training and growth to meet the challenges ahead and budgeting for at least one part time position.

- Energizing the library collection based on our community’s preferences, a multiplicity of formats, and to increase patron engagement with the collection

- Providing services that support the technological needs of the community including the implementation of an online reader’s advisory service for parents and children and an online summer reading option for parents and children.

- Enhancing library spaces to encourage collaboration, social interaction, and reading enjoyment. KCPL was awarded State Capital Grants in FY 2017 and FY 2018 to redesign of the children’s department, upgrade electrical system and create a collaborative/teen area in the Chestertown Library. KCPL worked with a redesign consultant to cost out and implement Project 20/20 redesign for Chestertown to include redesign of teen area and flexible plans for current and future technologies.
- KCPL continued outreach to major organizations and civic entities. We initiated and maintained these valuable community partnerships and collaborations so that the community will better use and value library services.

The Foundation for the Kent County Public Library was again the recipient of a PNC Grow up Great Grant to support the FY17 summer reading program. This year’s program was focused on reaching new users to engage them with summer reading and preventing summer slide in two ways. First, we set up an online only version of our summer program for any families who are unable to come to the library but were willing to work on their activities remotely. Second, we made a concerted effort to encourage the participation of all summer school students in the summer reading program by visiting them, hosting field trips, and taking prizes and books to them at their school.

KCPL was also the recipient of a FY17 LSTA Staff Training grant that allowed it to further the education of two staff members.

Trustee membership remained constant and their engagement remained high. Two new members: Earl Runde and Elisabeth Tully were appointed to a five year term.

The community, in the form of the municipalities, volunteers, the Friends of the Kent County Public Library, the Foundation for the Kent County Public Library and the general community continued their support.

**2017 Service Highlights**
